Vox on IPA's Work Comparing Cash to Ultra Poor Graduation Programs

With the launch of their [Future Perfect](#) section, Vox discusses IPA research on [cash benchmarking](#), comparing cash to the multi-faceted "graduation approach" to helping the poorest of the poor. They discuss how this worked [in Uganda](#) and a [large-scale randomization](#) tested in [Ethiopia](#), [Ghana](#), [Honduras](#), [India](#), [Pakistan](#), and [Peru](#). The piece and the research highlight when cash can be effective, but also how IPA is finding out what might work even better.
