COVID-19 Phone Survey in Senegal

Researchers

[Alexis Le Nestour](#), [Samba Mbaye](#), [Justin Sandefur](#), [Laura Moscoviz](#)

Abstract

This survey aims to gather information on a representative sample of 1,000 respondents to understand how they are affected by the COVID-19 crisis, how well they follow mitigation measures, their perception of the crisis and government action and impact on children's education. The panel of respondents will be followed every month during the time of the crisis.

Project Outcomes of Interest

A policy report for the government on the impact of COVID-19 and attitudes of the population towards the pandemic. Data to be made public for policymakers or researchers, notably epidemiologists.

Partners
