IPA Kenya Facilitates Policy Opportunity Matchmaking Workshop at the 8th Annual EASST Summit

On July 23, IPA Kenya facilitated a policy opportunity matchmaking workshop as part of the 8th Annual EASST Summit. The workshop was attended by EASST fellows, NIERA alumni, CEGA affiliates, partner organizations, and Kenya government officials. The objective of this workshop was to provide a platform for these groups to connect and start new scale-up and impact evaluation consulting opportunities that will be partially funded by EASST through its “Policy Engagement Grant” program. The session focused on four sectors: education, health, agriculture, and financial inclusion. Participants broke into sector group discussions to map out their common areas of research interest, potential opportunities for collaboration, and ultimately come up with proposals for EASST funding on the identified areas of policy engagement.
