Competitive Grant Proposal Writing: Advancing Locally Grounded Research

Thursday, August 3, 2023 | 8AM EST | 1PM WAT | 3PM EAT

IPA is partnering with the Partnership for Economic Policy (PEP) to conduct a learning webinar on proposal development targeting global south researchers from partner institutions, specifically to strengthen their capacity for grant proposal writing and research project development.

This webinar is a precursor to the in-person proposal development workshop that will engage and work with selected low- and middle-income countries (LMIC) researchers to write competitive grant proposals and respond to calls for funding. The session will also provide insights into the fundamentals of grant proposal writing, research development, and budgeting. The webinar targets southern researchers who are keen on applying competitively for research grants and conducting research.

Speakers:

- [Ginger Golub](#), Innovations for Poverty Action (IPA)
- [Maria Laura](#), Partnerships for Economic Policy (PEP)
- [Eitan Paul](#), Abdul Lateef Poverty Action Lab (J-PAL)
- [Jennifer Nyakinya](#), Network of Impact Evaluation Researchers in Africa (NIERA)
